Net Weight: 2670 lbs. / 1213 kg

MIX WELL BEFORE USING

Directions For Use: Use Komodo Pro to help prevent or correct potassium deficiencies. The product is stable, non-caustic and non-corrosive, and can be used in a wide range of application equipment. Komodo Pro, which is presented in a low salt form due to potassium citrate, also contains chelated micronutrients suitable for programs where potassium and micronutrients are needed. Buffered to a slightly acidic pH, Komodo Pro works well where lower pH products are desired.

Application Rates:

- **Agriculture:** For spray applications, apply one to four gallons/acre. For soil applications, apply one to six gallons/acre.
- **Turf:** Apply 8 to 64 fluid ounces per 1,000 square feet based upon turf requirements and frequency of application. Use the low rate for more routine use and higher rate if corrective application is necessary. Ideally, water into turf after application. Do not apply near water, storm drains or drainage ditches. Do not apply if heavy rains are expected. Apply this product only to your lawn/garden.
- **Ornamental Trees:** Apply 2.5 to five gallons/acre. Use sufficient water to push product into the root zone.

Compatibility With Other Materials: Komodo Pro has a slightly acidic pH and is compatible with most fertilizers and pesticides. Agitate thoroughly when tank mixing. Add water first, followed by Komodo Pro and then other ingredients. Do not pre-mix Komodo Pro directly with undiluted high sulfate or high pH (>8.5) products.

Information regarding the contents and levels of metals in this product is available on the Internet at <http://www.aapfco.org/metals.htm>

Warning.
Causes Eye Irritation.

PRECAUTIONARY STATEMENTS

Prevention

- Wash face, hands and any exposed skin thoroughly after handling.
- Do not eat, drink or smoke when using this product.
- Wear eye/face protection.
- Do not breathe dust/fume/gas/mist/vapors/spray.
- Do not handle until all safety precautions have been read and understood.
- Use personal protective equipment as required.

General Advice

- Immediately call a poison control center or doctor.
- See below for specific treatment.

Eyes

- IF IN EYES: Rinse cautiously with water for several minutes. Remove contact lenses, if present and easy to do. Continue rinsing.

Skin

- IF ON SKIN (or hair): Immediately remove all contaminated clothing. Rinse skin with water/shower.
- Wash contaminated clothing before reuse.

Inhalation

- IF INHALED: Remove victim to fresh air and keep at rest in a position comfortable for breathing.

Ingestion

- IF SWALLOWED: Call a poison control center or doctor if you feel unwell.
- Rinse mouth.
- Do NOT induce vomiting.

Storage and Disposal

- Store locked up in original, labeled container and keep sealed.
- Do not store in direct sunlight for extended periods or allow to freeze.
- Dispose of contents/container to an approved waste disposal facility.
